Technical Skills

Technical Stack: JavaScript (ES6+), TypeScript, Python, SQL, Java, MERN Stack (MongoDB, Express.js, React.js, Node.js), Next.js, HTML5, CSS3, Tailwind CSS.

AI & Data Engineering: Claude Code, LLM Integration (OpenAI, Gemini, Claude APIs), Google AI Studio, Prompt Engineering, RAG (Retrieval-Augmented Generation), AI Agents, LangChain, NumPy, Pandas, SQL Analytics, ETL Pipelines, Data Visualization.

DevTools & Infrastructure: Android Studio (with Gemini integration), Git, GitHub, Linux (Unix), Docker, CI/CD, Postman, Vercel, Netlify, Firebase, MongoDB Atlas, VS Code, Jupyter, Figma, Framer, Unity, Adobe Creative Suite (Premiere Pro, After Effects, Photoshop, Illustrator), Final Cut Pro.

Work Experience

Flipkart (Teleperformance)

Aug. 2025 – Nov. 2025

Customer Support Associate

Bangalore, India

- Resolved 10K+ weekly customer inquiries by leveraging AI-powered productivity tools and active listening, consistently maintaining high satisfaction metrics while reducing average turnaround times by 25% through cross-functional collaboration.
- Strengthened stakeholder management and conflict-resolution abilities by streamlining issue escalation processes and utilizing knowledge management systems to enhance operational efficiency.

The Portrait Gallery

Sep. 2024 – Aug. 2025

Software Engineer

Kolkata, India

- Engineered a high-performance, responsive business website that increased user engagement by 30% and drove a 25% growth in customer conversions through analytics-driven optimization and modern frontend stacks.
- Managed full-cycle project delivery from concept to deployment, collaborating directly with stakeholders to implement strategic, performance-enhancing solutions.

DevRhylme Foundation

Jan. 2025 – Jun. 2025

Software Engineer Intern

Kolkata, India

- Automated data processing workflows by developing Python-based AI/ML solutions, reducing manual effort by 40% while accelerating software delivery through LLM-powered prototyping and debugging workflows.
- Demonstrated technical leadership by collaborating with multidisciplinary teams to deliver scalable software solutions, emphasizing project ownership and effective cross-functional mentorship.

Social Winter of Code

Jan. 2025 – Mar. 2025

Open Source Contributor

Kolkata, India

- Improved project efficiency by 35% through the implementation of frontend enhancements and API integrations, utilizing AI-assisted development tools to streamline code delivery and documentation.
- Executed production-ready features within distributed teams using Agile methodologies, Git-based version control, and rigorous peer code reviews to maintain high engineering standards.

Projects

MERN AI Chatbot

- Developed a full-stack, scalable AI chatbot using the MERN stack and TypeScript, featuring secure JWT authentication, role-based access control, and low-latency OpenAI API integration.
- Optimized backend architecture and database design to handle 500+ monthly conversations, resulting in a 35% reduction in response times and 99.9% data reliability for stored sessions.
- [GitHub](#)

Warranty Vault

- Engineered an AI-powered Android application using Room Database and intelligent document processing to automate billing and warranty data extraction, reducing manual management effort by 80%.
- Implemented proactive background notification services that increased warranty tracking accuracy by 90% and helped users efficiently manage over 1,000+ purchase records.
- [GitHub](#)

The Portrait Gallery

- Engineered a high-performance portfolio platform using React, Framer, and Spline, delivering responsive layouts and interactive 3D experiences that increased user engagement by 40%.
- Achieved 95+ Lighthouse performance scores through rigorous SEO optimization, efficient asset management, and modern frontend architecture development.
- [GitHub](#)

Bacola Shopping

- Engineered a scalable e-commerce application with React, Firebase, and Stripe, streamlining complex checkout workflows and transaction processing for 500+ product listings.
- Improved transaction efficiency by 35% and accelerated page load times by 40% through optimized state management, responsive UI design, and high-performance rendering practices.
- [GitHub](#)

Education

University of Calcutta

Bachelor of Science in Computer Science

Sep. 2021 – Aug. 2024

West Bengal, India
